 - Used multiple joins, created mutiple calculated columns, Designed the Dashboard.
 - Provided various features and functionalities within the dashboard using library like Plotly & Seaborn to visually represent & streamline administrative tasks, so that user's can track and conclude decision from performance analytics.
 - Conducted multiple test to identify and resolve bugs, usability issues, and performance within the dashboard, maintaining high accuracy & user satisfaction.
-

TECHNICAL SKILLS

- Python Programming
- ETL Tools
- SQL
- Exploratory Data Analysis
- Database Management System
- Power BI / Tableau
- Advance Excel
- HTML

EDUCATION

Master of Computer Application

Specialization - Data Science

Bharathi Vidhyapeeth Deemed University, Pune

Grade - Pursuing

Bachelor of Computer Application

Savitribai Phule Pune University, Pune

CGPA: 7.93

PROJECTS

Title & context - Data Analysis [Extraction & Prediction]

- Implemented data analysis using sql and excel for different law firms
- Analyzed data across regions , matters and time to identify trends and underperforming areas.
- Migrated data fluently and without any data loss from client's location to CLX.
- Maintained daily data flow across firms to clx as well as used joins , window functions ,aggregate functions , lookups , various formulas for data transformation

Title & context - Prediction Analysis

- Developed and maintained complex SQL queries to extract, manipulate, and analyze large datasets for business intelligence reporting.
- Analyzed dashboards in Tableau to track KPIs, leading to a 15% improvement in operational decision-making.
- Automated weekly and monthly reporting tasks, reducing manual workload by 30%.
